

EIPM WORKSHOP RECRUITING & ONBOARDING PURCHASING TALENT

THURSDAY, 05 APRIL 2018
ARCHAMPS, FRANCE

NEW GENERATIONS' EXPECTATIONS

New generations of people want to be trained and developed differently than before: what to change in our recruitment processes?

USING NEW TECHNOLOGIES

New technologies enable us to transfer knowledge differently, to better share know-how, and to individualise the follow-up of their practice: how to use them to better integrate people in their teams?

THE EFFECT OF DIGITALISATION

Minds have been revolutionised by the digitalisation of the world: can we still onboard them as we used to do before? What must change? What do we have to adjust? Which solutions or technologies can help us?

TRANSVERSAL CAREERS

Buyers today will have more transversal careers: should we think from the start how to develop them in the long run? How to onboard them to keep them and to make the most of them?
