

THE EIPM CPO ROUND TABLE STRATEGIES & ORGANISATIONS

A CPO needs to keep up to the changes and lead his team to stay competitive. Time is limited and challenges are paramount. The EIPM CPO Round Table offers an opportunity to anticipate future changes, answer the current ones and to benchmark across countries and industries.

FORMAT

Two days of intensive exchanges, organised around short company cases, interactive workshops and high level debates.

AGENDA

The agenda of the Executive Round Table is created in close collaboration with participants, who bring their burning issues, new concerns and success stories to the table.

GOAL

The goal of the CPO Round Table is to critically analyse how purchasing management takes shape in different countries and industries, while sharing best practices and experiences.

PARTICIPANTS

This well-established forum brings together a limited number of leading executives, creating a network of professionals sharing the same values, the same enthusiastic approach to people and Purchasing.

14 & 15 JUNE 2018
at the Charles de Gaulle Airport, Paris
