The impact of the Internet of Things on Purchasing

This webinar will show that Purchasing has the opportunity to be on the forefront of business critical changes.

Some collaboration undertaken around IoT will bring major gains in terms of efficiency; new levels of performance, business differentiation or even multi-dimensional innovation with the power to transform a sector or an industry architecture.

Next to their well-established activities, PSM will need to strengthen their ability to lead and contribute to innovation and to broader business projects. This will require higher levels of functional ambidexterity, extended processes and new capabilities.

This will also entail new forms of organization in which traditional Category Management teams will co-exists with much more flexible and swift forms of work that will respond to the business transformation imperatives.

The Internet of Things (IOT) will bring a tectonic change in the structure of industries in the next 20 years.

More disruptions and value chains reconfigurations have to be anticipated.

We have only seen the first sparks of a broad transformation.

EIPM Webinar

The impact of the Internet of Things on Purchasing

About

This webinar will show that Purchasing has the opportunity to be on the forefront of business critical changes.
In this context, the impact of Purchasing can go well beyond minimizing risks and containing costs.

To develop this topic, **Dr Hervé Legenvre**, Value Creation Observatory Director at EIPM, will host a live session on Wednesday, 26th of April 2017.

Online sessions

Two sessions are planned on the same day, to allow participants from all over the world to join:

SESSION 1	SESSION 2
11:00 AM CET	04:00 PM CET
05:00 PM Shanghai	11:00 AM São Paulo
02:30 PM Mumbai	09:00 AM Mexico City
	10:00 AM Washington

Format

Duration of the presentation is 60' followed by 30' Q&A.

Registration

Participation is free-of-charge but, as the number of places is limited, registration is compulsory.

To register, please visit www.eipm.org

The access codes to join the session of your choice will be delivered few days before the webinar date.
In the meantime, if you need more information, please contact Ms Silmara Codeville at scodeville@eipm.org
